Students Ask Credits for Athletics.

UNIVERSITY OF CALIFORNIA—University credit for undergraduate athletic activities, or the placing of sports on the same basis as regular studies is the novel proposition now being urged by prominent students at the University of California. Those who are agitating this radical departure in academic accrediting declare that athletic training has an important, permanent place in a university's life, but that, under existing conditions, it is impossible for a man who engages in any of the regular sports to do justice to both his studies and his team.

ALL THE YEAR ROUND IN THE REALM OF NATURE

The young men of the Presbyterian Church of this city gave an entertainment in the Bidwell mansion last evening which was attended by over three hundred persons. So elaborate were the preparations for it that it took fifteen of the young men nearly all day yesterday to get everything in readiness for the occasion.

One particularly noticeable feature was an arrangement of objects and materials to illustrate the four different seasons of the year—spring, summer, autumn and winter. This work was all constructed on the spacious veranda of the mansion and was most decidedly a great credit to those who arranged it—the young men and the church

from April 1 to 11.

Clarence Reeves, night driver of the

The spring scene consisted of a real running brook, murmuring down a small cliff onto the rocks below, then trickling merrily over the sand and pebbles for a distance of about thirty feet across the porch.

The summer scene was an illustration of the people camping in the mountains. A tent built under a tree, under which some persons were cooking on a camp stove.

The autumn scene was one where the leaves were falling upon the haymakers, who were gathering up and shocking the hay.

The winter scene was illustrated by the use of a large mirror for lakes, trees and white cotton wool for snow. Pine trees on the hill side were covered with snow.

A suitable and very pleasing program had been prepared and was well rendered. "A Mid Summed Night's Dream" was illustrated by some of the boys. Dr. Van Liew rendered a very pleasing solo, and a male quartette and a duet by Bryan Ames and Harry Bernhard kept the attention of everybody.

Delightful refreshments were also served.

Californians Hold Meeting.

The California State Association of Washington, met last evening at the Ebbitt House. The claims of Gen. Bidwell and Commodore Sloat for statues in the Statuary Hall were discussed; a committee was appointed to correspond with California commercial bodies looking to the permanent establishment in Washington of an exhibit of fruits and other products of the state, and steps were taken to secure the papers and relics of the California Pioneer Association of the District of Columbia for preservation in the archives of the present association. The next meeting of the association will be held at Marshall Hall, the home of Col. McKibbin, a pioneer Californian.

WOMEN WORKING ON THE TEMPLE

Chico Enterprise
Apr. 21, 1905

The Chico Vecino women and some of the Woman's Christian Temperance Union women of Chico met yesterday at the Bidwell Mansion to sew carpet rags for making rugs for sale, so as to secure funds to build their temple. There were over thirty present. After a busy afternoon two delightful solos were sung by Maggie Lafonso and Edna Canfield, both having promising voices. A Bible reading by Mrs. Arnold was followed by serving of abundant refreshments.

The enthusiasm and persistence of this band of women knows no discouragement. They believe in the day of small things and the perseverance of the saints. They are going to accomplish that for which they are striving.

CAMERAS AID DETECTIVES.

Railroad Calls on Photography to Catch Bibulous Employes.

Special to The New York Times.

WINSTED, Conn., Nov. 29.—Detectives carrying small cameras have been employed by the Central New England Railway to get evidence against its trainmen who frequent saloons while on and off duty.

About a dozen of the company's train hands, including engineers and conductors, are known to have been photographed while drinking at bars in Hartford, Winsted, and Goshen, N. Y. One employe, an engineer, has been discharged so far.
